PROFESSIONAL SUMMARY

Aspiring Software Developer with hands-on experience in AI, web development, and database systems. Built 5+ real-world projects including fraud detection and automation systems. Skilled in Python, Java, and full-stack development, with a strong interest in cloud computing and cybersecurity.

EDUCATION

Bachelor of Engineering in Computer Science
Dhaanish Ahmed College of Engineering, Chennai
Currently Pursuing (3rd Year)

TECHNICAL SKILLS

Languages: Python, Java, C
- Web Technologies: HTML, CSS, JavaScript, React
- Databases: MySQL, PostgreSQL
- Technologies: AI/ML, Web Development, App Development
- Tools: Git, VS Code

INTERNSHIPS

1. **Infosys – Web Security Intern**
   - An automated vulnerability scanner detecting **10+ common web security flaws**.
   - Performed security testing on **15+ web application** modules
   - Improved detection **efficiency by 30%** using structured scanning and reporting.
2. **Intelizign – Java Development Intern**
   - Created Java applications integrating REST APIs to handle **real-time data processing for 1000+ records/day**.
   - Implemented API response efficiency, reducing data retrieval time by **30%.**
3. **MSME – UI/UX Intern**
   - Designed responsive UI for **5+ web pages**, improving usability and accessibility.
   - Enhanced user experience, reducing user interaction time by **25%**.

PROJECTS

1. **Web Scan Pro | Python**
   - Developed an automated web vulnerability scanner detecting **10+ vulnerabilities including SQL Injection and authentication flaws**.
   - Scanned and analyzed **50+ URLs/pages** during testing phase.
   - Generated structured reports reducing manual analysis time by **40%**.
2. **AI Credit Card Fraud Detection | Python, Scikit-learn**
   - Innovated ML model with **92% accuracy**.
   - **Analyzed 25,000+** transactions.
3. **Database Activity Analytics & Automation | PostgreSQL, Python**
   - Consolidated system to monitor **real-time database activity across multiple tables**.
   - Automated reporting process, **reducing manual effort by 92%**.
   - Processed reporting, automation **at 60% and saving ~2 hours/day.**
4. **Intelligent Chatbot System | Java, REST APIs**
   - Completed NLP-based chatbot handling **100+ user queries/day**.
   - Integrated **response efficiency**, reducing manual query **handling by 50%.**
5. **Smart Contact Management System | Java, JDBC, PostgreSQL**
   - Introduced Java-based CRUD system managing **1000+ contact records** with secure authentication.
   - Optimized SQL queries, improving data **retrieval speed by 40%.**

CERTIFICATIONS

NPTEL (Python, Google Cloud, DBMS) | Infosys Springboard |Cisco | MongoDB | IBM | Microsoft Learn | Oracle
